AI Fluency Framework & Foundations

Huzaifa Muqet

Software Engineer | Full-Stack Developer (React, Node.js) | AI/ML & LLM Integration (Custom ML Model Training, NLP, PyTorch, Chatbot Developer)

Gujrat District, Punjab, Pakistan

Summary

Software Engineer with hands-on experience across full-stack web development and applied AI/ML. I fine-tuned NLP models (T5-Small, DistilBERT) to power Lyra, an AI-driven project management platform with automated task generation and skill-based assignment, and contributed to BotFizz, a live AI chatbot SaaS deployed across WhatsApp, Instagram, and web. Comfortable across the stack — React.js, Node.js, PostgreSQL — and increasingly focused on shipping AI-integrated products using PyTorch, Hugging Face Transformers, and the Claude/GPT-4 APIs. Core skills: Python • PyTorch • NLP • LLMs • Prompt Engineering • React.js • Node.js • JavaScript • SQL • REST APIs • Git. Actively seeking opportunities as an AI/ML Engineer, AI Automation Engineer, Software Engineer, or Full-Stack Developer, where I can ship real products and keep growing as an engineer. Let's connect and build something worth shipping.

Experience

FlyRank AI

Backend AI Engineer - Intern

July 2026 - Present (2 months)

Chicago, IL

Currently interning at FlyRank AI as an AI intern, focusing on Backend AI Engineering.

AA Empire Properties

Web Developer

January 2026 - April 2026 (4 months)

Islamabad

- Built and maintained responsive, SEO-optimized business websites using HTML, CSS, JavaScript, and React, including ongoing website optimization.

- Managed the company's Facebook page and produced graphic design assets for social media and marketing materials, supporting audience engagement alongside development work.

BotFizz.com

Contributor

November 2025 - April 2026 (6 months)

- Validated chatbot deployment flows and AI intent-recognition accuracy across WhatsApp, Instagram, and web channels on a production no-code chatbot builder used by SMBs.
- Fed structured feature-testing and onboarding-flow feedback into the core engineering team, improving first-time setup UX.

ICSDI Conference

Lead Manager & QA Engineer

January 2026 - February 2026 (2 months)

Riyadh, Saudi Arabia

Organized as part of the prestigious 3rd International Conference on Sustainability: Developments and Innovations (ICSDI) 2026, Venture-Z brings together the brightest minds and visionary thinkers who are passionate about creating a better future.

Power Play Concepts Pvt.Ltd

Associate Web Developer

June 2025 - November 2025 (6 months)

Islāmābād, Pakistan

- Designed and maintained full-stack client websites using PHP, Vue.js, and WordPress/WooCommerce — including the Hamara Foods SMC client site — ensuring cross-browser compatibility and responsive functionality.
- Handled plugin integrations, UI/UX improvements, SEO, and performance optimization alongside two concurrent part-time remote internships.

Software Productivity Strategists, Inc. (SPS)

Intern

July 2025 - September 2025 (3 months)

Developed full-stack web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js), implementing scalable and responsive solutions.

Worked on cloud-based solutions leveraging AWS, Azure, and cloud deployment strategies, ensuring optimized performance and high availability.

Applied AI and machine learning techniques to automate workflows, enhance data-driven decision-making, and improve system efficiency.

Contributed to end-to-end software development lifecycle (SDLC), including requirement analysis, design, development, testing, and deployment.

Collaborated in agile teams, utilizing Git, GitHub, and CI/CD pipelines for version control and streamlined deployment.

Implemented RESTful APIs and integrated third-party services for robust web application functionality.

Focused on performance optimization, scalable architecture, and modern web technologies to deliver enterprise-grade solutions.

Friendware Solutions

Intern

July 2025 - August 2025 (2 months)

Islāmābād, Pakistan

- Built a Student Management System (registration, attendance, performance tracking) using ASP.NET Core MVC, Entity Framework, and SQL Server.

STATE LIFE

Assistant Database Administrator

March 2024 - May 2024 (3 months)

Gujrāt

Performed database management tasks. Assisted with office administration, clerical duties, and data entry. Handled customer inquiries and provided support. Organized and maintained filing systems. Coordinated with team members to ensure smooth office operations.

Education

University of Gujrat

Bachelor of Science - BS, Computer Software Engineering · (2022 - 2026)

Aspire College Gujrat

Intermediate, Fsc (Pre-engineering) · (2020 - 2022)
